

AH4626 SE | AH4632 SE DC ELECTRIC SCISSOR LIFTS

DC Electric Scissor Lifts offer high capacity and large platform areas, making them suitable for any on-slab application. Featuring variable speed rear wheel hydraulic drive, the 4626 SE and 4632 SE scissor models offer working heights up to 11.75 m and 25% gradeability.

A standard 1.22 m roll out extension deck can be secured in multiple positions, and both models can be driven at full height. Featuring robust and reliable design features, DC Electric Scissor Lifts utilize our standard color coded and numbered wiring system with analog based controls.
