**H**eliDec™

**Helicopter Utility  
Access Platform**  
From Working At Height Limited

Introducing the **HeliDec™** from Working At Height Limited. The new help for accessing many surfaces of a Helicopter without bespoke docking, often out in the line or remote bases, of course staging will always be required for heavy maintenance, but for checks the much more affordable/low cost **HeliDec™** could be ideal.

The **HeliDec™** does not replace docking or staging but what it does do is provide quick, easy and safe access, with guardrail protection and height adjustment up to a reach height of 4.00m.

The **HeliDec™** offers so much around all helicopter types and operations, from commercial use, VIP transportation, search and rescue, air ambulance, offshore and windfarm support, Police and law enforcement, firefighting, military and naval operations.
