POWERFUL CHOICES

The Genie® Superlift Advantage® is a manually operated material lift with multiple base, winch and load handling options to create just the lift you need. The compact, portable design rolls through standard single doorways and loads easily into a pickup truck. It also lifts up to 1,000 lbs (454 kg) of material up to 11 ft 5.5 in (3.49 m) and up to 650 lbs (295 kg) to heights of up to 26 ft .5 in (7.94 m). With so many choices, the versatile Genie® Superlift™ Advantage helps you maximize productivity and value for your money.

STRADDLE BASE

Versatile and adjustable, this base is perfect for wide loads and narrow doorways. It straddles loads from 31.5 to 50 in (80 to 127 cm) wide and easily handles pallets up to 48 in (122 cm) wide. Flat forks allow ground level loading. (SLA™-5, SLA™-10, SLA™-15)

STANDARD BASE

This field-proven design provides dependable performance with a welded steel base for extra support. Stabilizers are standard on 20 and 25 ft (6.1 and 7.6 m) models. There are no loose parts. (SLA™-5, SLA™-10, SLA™-15, SLA™-20, SLA™-25)

Choose base, mast height, winch speed and load handling attachments to configure the exact material lift for your worksite.
EASY TO MANEUVER, LOAD AND STORE

The unit sets up quickly without any tools and is ready to go to work in seconds. It rolls through standard single doorways in the upright position — no need to remove the load or tilt back the lift. The rear transport wheel assembly also allows maneuverability on uneven surfaces. Legs fold up and attachments are removable for easy storage and loading, plus a hold-down bar secures the mast assembly during transport.

SEVEN LOAD HANDLING ATTACHMENTS

Interchangeable load handling attachments handle a large variety of workloads, so you can design your lift to meet your needs.

**STANDARD FORKS** accommodate a variety of general loads. Get an additional 20 in (51 cm) of lift by turning over and re-pinning the forks.

**ADJUSTABLE FORKS** widen from 11.5 to 30 in (29 to 76 cm) to accommodate diverse loads.

**FLAT FORKS**, which widen from 16 to 31 in (41 to 79 cm) to provide proper support, allow you to easily lift your load off of flat surfaces.

**FORK EXTENSIONS** insert onto standard forks for an additional 25 in (64 cm) of length.

**LOAD PLATFORM** fits over the forks to handle odd-sized or heavy objects — no tools required for installation.

**BOOM option** transforms your lift into a mobile, vertical crane or hoist to position tooling fixtures, circuit breakers, engines and more.

**PIPE CRADLE** helps hold odd-shaped items in place for easy lifting.

**PATENTED TELESCOPING MAST SYSTEM** Heavy-duty design provides compactness, strength and rigidity.

**SUPPORT FOR HEAVY LOADS** The captive stabilizer with patented “locking system” provides additional lateral support for heavy loads (standard on SLA*-20 and SLA*-25).

**WINCH OPTIONS** The standard one-speed winch incorporates a silent ratchet system. A two-speed winch upgrade allows you to shift gears “on the fly” to lift loads faster without removing or re-attaching the handles.

---

* Outside dimensions.  ** For use with standard and adjustable forks only.  *** Measured from ground to bottom of shackle.  **** Length/width/depth.  ***** Handles round objects up to 30 in (76 cm) in diameter.
Features

EASILY CONFIGURED TO MEET YOUR NEEDS

FORK OPTIONS
• Standard forks
• Adjustable forks
• Fork extensions
• Flat forks (SLA™-5, -10, -15 only)
• Boom
• Pipe cradle
• Load platform

POWER OPTIONS
• One-speed manual winch
• Two-speed manual winch

BASE OPTIONS
• Standard base
• Straddle base (SLA™-5, -10, -15 only)
• Stabilizer set (standard on SLA™-20, -25, not available on straddle base)

CASTER & BRAKE OPTIONS
• Rear transport wheel assembly

STANDARD FEATURES

MEASUREMENTS
SLA™-5
• 6 ft 7 in (2.0 m) maximum working height
• Up to 1,000 lb (454 kg) load capacity

SLA™-10
• 11 ft 5.5 in (3.49 m) maximum working height
• Up to 1,000 lb (454 kg) load capacity

SLA™-15
• 16 ft 4 in (4.98 m) maximum working height
• Up to 800 lb (363 kg) load capacity

SLA™-20
• 21 ft 2.5 in (6.46 m) maximum working height
• Up to 800 lb (363 kg) load capacity

SLA™-25
• 26 ft .5 in (7.94 m) maximum working height
• Up to 650 lb (295 kg) load capacity

PRODUCTIVITY
• Heavy-duty design
• Patented telescoping mast system
• Captive stabilizer set (standard on SLA™-20, -25)
• Rolls easily through single door in upright position
• Quick set up requires no tools
• Interchangeable load handling attachments
• Maneuverable 4 in (10 cm) front casters and 5 in (13 cm) rear casters, with 4-way swivel locks and side brakes, are standard
• Compact design, legs fold up for easy storage
• Roller wheels allow easy transport in stowed position
• Easy to load and unload on or off a vehicle for transport
• Hold-down bar secures mast assembly during transport

POWER
• One speed manual winch

OPTIONS & ACCESSORIES

PRODUCTIVITY
• Standard forks
• Adjustable forks
• Fork extensions
• Flat forks
• Boom
• Pipe cradle
• Load platform
• Captive stabilizer set (option on SLA™-5, -10, 15)
• Rear transport wheel assembly

POWER
• Two speed manual winch
